Honourable Thomas W. Marshall, Q.C.  
Minister of Finance  
Government of Newfoundland and Labrador  
Confederation Building  
St. John's, NL  
A1B 4J6

Dear Minister Marshall:

In accordance with Section 13 of the *Municipal Financing Corporation Act*, section 9 of the *Transparency and Accountability Act* and on behalf of the Board of Directors, it is my pleasure to submit the annual report of the Newfoundland and Labrador Municipal Financing Corporation summarizing the Corporation's activities for the fiscal year ended March 31, 2010.

NMFC was established to consolidate the long-term borrowing programs of all municipalities in one central Crown agency. The proceeds of these borrowings were then used to provide long-term financing to meet the capital requirements of municipalities. As most municipal projects were cost shared with the Province, the financing provided was recovered partially from the municipality with the balance, representing the Province's share, paid by the Department of Municipal Affairs.

However, NMFC's mandate and role evolved over time to a situation whereby most municipalities were capable of financing their capital programs independently through financial institutions, primarily banks. NMFC continued to borrow to provide financing for the Provincial share of capital projects for a period of time but, in 2005-06, Government decided it would no longer finance its portion of municipal capital projects but would fund it directly through annual budgetary allocations. Consequently, NMFC discontinued its capital markets borrowing program and its mandate is now to wind up operations when it collects its outstanding loans receivable and repays its outstanding debenture debt. This report outlines the progress made in 2009-10 on the collection of outstanding receivables and payment of outstanding debenture debt.

The Board of Directors has approved the financial statements and information contained in this annual report, and the Board is accountable for the results reported herein.

Sincerely,

A handwritten signature in dark ink, appearing to read 'T. Paddon', with a long horizontal flourish extending to the right.

Terry Paddon  
Chairman of the Board

## **CORPORATE OVERVIEW**

### **Authority**

The Newfoundland and Labrador Municipal Financing Corporation (“NMFC”) was established in 1964 and operates pursuant to the provisions of the *Municipal Financing Corporation Act*. NMFC operates with a March 31 fiscal year end and the results of its activities are fully consolidated in the Province’s annual financial statements.

### **Purpose**

The Corporation was established to consolidate the long-term borrowing programs of all municipalities in one central Crown agency.

### **Board Representation and Accountability**

The affairs of NMFC are overseen by a Board of Directors appointed by the Lieutenant Governor in Council. All Board members are employees of the Province with the position of Chair held by the Deputy of Minister of Finance. The Board meets no less often than annually and approves its Annual Financial Statements and Annual Report, both of which are then tabled in the House of Assembly by the Minister of Finance. The members of the Board as at March 31 and their positions are as follows:

Mr. Terry Paddon (Chair)  
Deputy Minister of Finance

Mr. Brent Meade  
Deputy Minister of Innovation, Trade and  
Rural Development

Ms. Sandra Barnes  
Deputy Minister of Municipal Affairs

Mr. Robert Constantine  
Assistant Deputy Minister of Taxation and  
Fiscal Policy  
Department of Finance

Mr. Paul Myrden (Secretary)  
Director of Debt Management  
Department of Finance

Ms. Lisa Palmer  
Manager of Capital Markets and Financial  
Assistance Programs  
Department of Finance

## **Operational and Corporate Information**

NMFC has no direct employees as the day-to-day affairs are administered by employees of the Department of Finance. On a quarterly basis, the Province invoices NMFC for its share of the salary costs of the employees who are involved in its administration. Contact information is as follows:

## SHARED COMMITMENTS

An important issue for the Corporation, and the Province as guarantor of the Corporation's debenture debt, is the level of municipal loan arrears. Loan arrears at March 31, 2010 amounted to \$6.8 million (2009 - \$6.3 million). Historically, the Corporation collected a significant amount of arrears through the interception of municipal operating grants and from allocations from a Reserve Fund established with the Corporation and funded by the Province to assist towns most in need. Subject to the approval of the Minister of Finance, the Fund was periodically allocated as the Department of Municipal Affairs completed negotiations with town councils to determine the eligible levels of financial assistance towards arrears. No amounts have been allocated since the 2005-06 fiscal year.

Given that NMFC is no longer borrowing and lending the proceeds to municipalities, it does not have sufficient leverage with individual municipalities that can be used to collect outstanding amounts receivable. Consequently, the Corporation is reliant on the Department of Municipal Affairs (MA) to take the necessary action to address outstanding arrears as MA has some additional measures available to address problems arising from the municipalities' inability to pay the arrears, such as the interception of municipal payments and the suspension of further capital funding.

During the 2009-10 year, the Corporation reached an agreement with MA on a strategy to reduce and ultimately eliminate arrears on municipal loans. The components of this strategy are as follows:

- MA to make a lump sum payment of \$4 million to the Corporation. This was received in November 2009.
- This \$4 million would be combined with existing Debt Relief funding of \$1.77 million for a total of \$5.77 million available to be applied against arrears.
- The Corporation would discontinue the application of late fees on accounts in arrears effective November 1, 2009.
- MA will negotiate repayment arrangements with communities in arrears and provide the Corporation with periodic direction on the application of the \$5.77 million to individual accounts in arrears.
- MA will monitor active loan payments and implement additional collection efforts as required.

In addition to the agreed payment of \$4 million, a further \$1 million was paid by MA to the Corporation in March, 2010 for future application against arrears bringing the total available to \$6.77 million.

## **HIGHLIGHTS AND ACCOMPLISHMENTS**

Government has decided that, going forward, the Corporation will not be used as a vehicle to finance the Province's share of the cost of municipal capital projects. Since most of the Province's municipalities already arrange long-term financing from the banks and other financial institutions, the Corporation is in the process of winding up operations as it collects the loan portfolio and retires its debenture debt and this process continued during the fiscal year.

Collection of outstanding loans receivable amounted to \$23.4 million as the Corporation's loan portfolio was reduced from \$130.1 million to \$106.7 million. During the same period, outstanding accounts receivable increased from \$6.3 million to \$6.8 million owing to the net effect of increases in arrears owed by municipalities plus interest and late charges on overdue amounts less collections of arrears.

The net debenture debt of the Corporation decreased from \$119.4 million to \$98.9 million due to loan repayments of \$20.5 million during the year

## **PROGRESS ON OBJECTIVES – 2009-10**

### **Objective:**

As a result of a Government policy decision, NMFC discontinued its capital markets borrowing program several years ago with any subsequent municipal requirements to be met through the direct Provincial borrowing program. Consequently, NMFC is currently in the process of gradually winding down its operations through the collection of its outstanding loans receivable and retirement of its remaining debenture debt as it matures. This activity was the focus of NMFC's 2008-11 Activity Plan. As detailed below, NMFC has met its collection and repayment objectives for 2009-10.

### **Objective:**

By March 31, 2010, NMFC will have executed the collection of loans receivable and payment of debenture debt in accordance with the schedule of planned payments and collections for fiscal year 2009-10.

### **Measure:**

Net balances of outstanding loans receivable and debenture debt payable reduced by planned amounts.

### **Indicators (amounts in thousands):**

- Outstanding loans to municipalities reduced by \$23,458.
- Outstanding debenture debt reduced by \$20,466.

### **Results of 2009-10 Objective:**

- Outstanding loans to municipalities have been reduced by \$23,359.
- Outstanding debenture debt was reduced by \$20,466.

### **Variance of 2009-10 Objective:**

- Two towns paid off their loans in the 2008-09 year and one town in 2009-10, totaling \$99,000. Therefore, the reduction in the outstanding loans to municipalities is \$ 99,000.

## **OBJECTIVES – 2010 – 11**

### **Objective:**

By March 31, 2011, NMFC will have executed the collection of loans receivable and payment of debenture debt in accordance with the schedule of planned payments and collections for the year.

### **Measure:**

Net balances of outstanding loans receivable and debenture debt payable reduced by planned amounts.

### **Indicators (amounts in thousands):**

- Outstanding loans to municipalities reduced by \$20,469.
- Outstanding debenture debt reduced by \$18,566.

## **OPPORTUNITIES AND CHALLENGES AHEAD**

The major challenge for the upcoming year will be the continuing implementation of the strategy agreed to with MA with respect to outstanding municipal arrears as detailed in the Shared Commitments section.

## **FINANCIAL STATEMENTS**

### **Management's Responsibility for Financial Statements**

The financial statements of the Newfoundland and Labrador Municipal Financing Corporation are the responsibility of management and have been prepared in accordance with Canadian generally accepted accounting principles. The financial information presented elsewhere in the Annual Report is consistent with the financial statements and the underlying information from which the financial statements were prepared.

The Auditor General of Newfoundland and Labrador, appointed as the external auditor under the *Municipal Financing Corporation Act*, performed an audit on the financial statements in accordance with Canadian generally accepted auditing standards. The Auditor's Report attached to the financial statements outlines the scope of the examination and contains the Auditor General's opinion on the Corporation's financial statements.

**AUDITOR'S REPORT**

To the Board of Directors  
Newfoundland and Labrador Municipal Financing  
Corporation  
St. John's, Newfoundland and Labrador

I have audited the balance sheet of the Newfoundland and Labrador Municipal Financing Corporation as at 31 March 2010 and the statements of revenues, expenses and surplus, and cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at 31 March 2010 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

# NEWFOUNDLAND AND LABRADOR MUNICIPAL FINANCING CORPORATION

## NOTES TO FINANCIAL STATEMENTS

31 March 2010

### Authority

Newfoundland and Labrador Municipal Financing Corporation (the Corporation) was created by the *Municipal Financing Corporation Act*. The Corporation was established to provide long-term financing for the capital requirements of municipal corporations by the issuance of its securities, and relending the funds to municipal corporations. The Corporation's affairs are managed by a Board of Directors appointed by the Lieutenant-Governor in Council. All board members are full-time employees of the Province of Newfoundland and Labrador (the Province).

### 1. Significant accounting policies

These financial statements have been prepared by the Corporation's management in accordance with Canadian generally accepted accounting principles. Outlined below are the significant accounting policies followed.

(a) Premiums, discounts and issue expenses on debenture debt

Premiums, discounts and issue expenses are deferred and amortized on a straight line basis over the life of the debenture issue to which they relate. In the case of the early retirement of debenture debt, a proportionate amount of the deferred balance is included with the gain or loss in the determination of net income for the period.

(b) Deferred revenue

Penalties are charged when municipal corporations prepay all or a portion of their loans with the Corporation. These penalties are deferred and amortized on a straight line basis over the average years remaining for these loans prior to payout.

### 2. Loans receivable

**2. Loans receivable (cont.)**

Loans to municipal corporations are made on the security of their debentures. Provisions exist for the recovery from the Province of any defaults by municipal corporations. Therefore, no allowance for doubtful accounts has been provided.

Principal payments receivable in each of the next five (5) years are as follows:

<u>Year</u>	<u>Amount</u> (000's)
2011	\$20,469
2012	\$17,907
2013	\$16,602

**4. Debenture debt (cont.)**

Estimated debenture maturities over the next five (5) years are as follows:

Year Ending 31 March	Debenture Maturities (000's)
2011	\$18,566
2012	\$25,116

Deferred revenue	\$ 173	\$ 260
Less: current portion	(68)	(89)
<u>Long-term portion</u>	<u>\$ 105</u>	<u>\$ 171</u>

**6. Reserve fund**

The Province has historically funded a reserve fund established to mitigate arrears with respect to municipal loans. The reserve fund is allocated as the Department of Municipal Affairs concludes negotiations with various municipal corporations with respect to restructuring debt due to the Corporation. There has been no allocation to municipalities since March 2006. To assist with debt relief on arrears, the Department of Municipal Affairs deposited \$4 million into the reserve fund November 2009, and a further \$1 million in March 2010.

The year end reserve fund balance is as follows:

	2010 (000's)	2009 (000's)
Reserve fund, beginning of year	\$ 1,770	\$ 1,770
Add: funds advanced to Corporation during year	5,000	-

## **NOTES TO FINANCIAL STATEMENTS**

**31 March 2010**

---

### **7. Financial instruments**

The Corporation's short-term financial instruments recognized on the balance sheet consist of short-term investments, accounts receivable, accrued interest receivable, bank indebtedness, accounts payable and accrued liabilities, and accrued interest payable. The carrying values of these instruments approximate current fair value due to their nature and the short-term maturity associated with them. Since provisions exist for the recovery from the Province of any defaults by municipal corporations there is no credit risk associated with the Corporation's accounts receivable.

The Corporation's long-term financial instruments recognized on the balance sheet consist of long-term investments, long-term loans receivable and long-term debenture debt. The Corporation's policy is to hold its long-term investments to maturity, therefore their reported value is current fair value to the Corporation. Since provisions exist for the recovery from the Province of any defaults by municipal corporations there is no credit risk associated with the Corporation's long-term loans receivable and therefore, the amount presented in the balance sheet is the same as current fair value of the asset.

The majority of the Corporation's long-term debt is issued as serial debentures which are redeemed over a number of years at varying interest rates. In addition, the Corporation's long-term debenture debt was used to finance loans to the Province's various municipalities. The rates charged by the Corporation to these municipalities were calculated using the rates the Corporation was required to pay on its related debenture debt plus an additional percentage. Because provisions exist for the recovery from the Province of any defaults by municipal corporations and because the long-term debenture debt of the Corporation is specifically tied to these receivables, the long-term debenture debt as presented in the balance sheet is presented at current fair value and the Corporation is not subject to any rate risk relating to this debt.

### **8. Economic dependence**

As a result of cost-sharing arrangements, the loans receivable from municipal corporations disclosed in Note 2 are serviced by both the municipal corporations and the Province. Due to the nature of these arrangements, the Province is in effect repaying a significant portion of the loans owing to the Corporation. Provisions exist for the recovery from the Province of any defaults by municipal corporations.

The Corporation's debentures are fully guaranteed by the Province as to principal, interest and sinking fund payments, if any. As at 31 March 2010, this guarantee covered net debenture debt and accrued interest totalling \$99,566,000 (2009 - \$120,317,000).

As a result, the Corporation's continued existence is dependent upon the decisions of the Province.

### **9. Related party transactions**

The Corporation is administered by employees of the Department of Finance. The salary costs of these employees are paid by the Department of Finance, reimbursed by the Corporation, and are reflected in these financial statements.

**10. Income taxes**

The Corporation is a Crown corporation of the Province of Newfoundland and Labrador and as such is not subject to Provincial or Federal income taxes.

**11. Planned wind down of operations**

The Province of Newfoundland and Labrador has decided that it will no longer refinance its portion of completed municipal capital projects through the Corporation. As a result, the Corporation will be winding up its operations over the coming years as it collects its loans receivable and repays its debenture debt.
