*Annual Activity
Report 2007-08*

Message from the Chair

As Chairperson for the St. Anthony-Port au Choix Regional Council, I hereby submit the annual activity report for the 2007-08 fiscal year. On behalf of the Council and in accordance with the *Guidelines for Annual Activity Reports for Category 3 Government Entities*, my signature is indicative of the Council's accountability for the results achieved.

The St. Anthony-Port au Choix Regional Council has had many discussions over the last year in order to move forward its three identified priority areas. These discussions have been expanded within the community and that has given validity to the Council's thinking and has enhanced the dialogue the Council has been undertaking.

With the priority areas identified and initial discussions undertaken, the Council is prepared and looks forward to the next step in the process by engaging in discussion with provincial government officials and providing advice on issues of importance to the sustainability of the region.

We look forward to the upcoming year as another step in moving toward regional sustainability.

Sincerely,

Richard May

1. Overview of the Region

The St. Anthony-Port au Choix Rural Secretariat Region covers all communities including and north of River of Ponds on the Northern Peninsula.

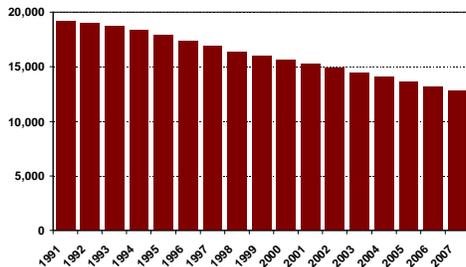

Similar to other areas of this province, the region was built on the fishery and forestry. Today, both industries continue to be the main source of employment and income. Both have changed significantly and are constantly changing as we move forward.

As the fishery and forestry continue to evolve, tourism and manufacturing are becoming more evident on the Peninsula. With the addition of a new hotel in St. Anthony and ever increasing sites and attractions such as the Torrent River Interpretation Center, the region continues to enhance offerings to visitors.

The new iceberg water bottling facility in St. Anthony and the manufacturing of prefabricated housing are examples of how the region is beginning to diversify and grow its economy. These new business ventures will contribute to the sustainability of the region.

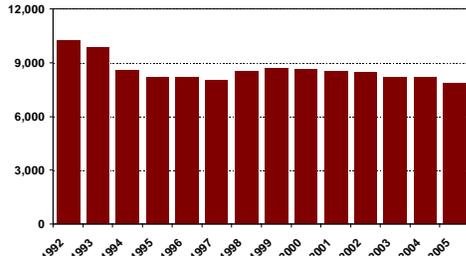

Population Estimates
St. Anthony-Port au Choix Rural Secretariat Region

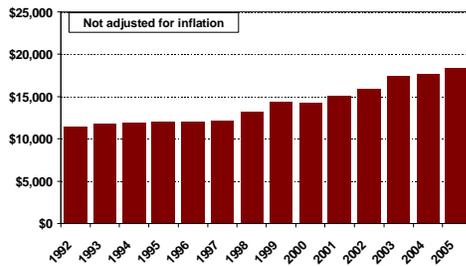

The St. Anthony-Port au Choix region was reported as having a population of about 12,800 in 2007. The largest towns and main regional service centres in the region are St. Anthony (population of about 2,476 in 2006), Roddickton (population of about 911) and Port Saunders (population of about 740). Additional regional demographic information can be found in *Regional Demographic Profiles: Newfoundland and Labrador* (www.economics.gov.nl.ca/population/regionaldemographicprofiles.asp).

**Educational Attainment
St. Anthony-Port au Choix Rural Secretariat Region**

The region's labour market has remained fairly stable since the mid 1990s. Over the past ten years, the number of persons employed (including self-employed) averaged about 8,300.

While employment has remained stable, incomes have increased. Per capita income in the region in 2005 was \$18,400. This is an increase of about 22% from 2001 and 53% from 1996.

Over this period, incomes have also been impacted by inflation and by changes to personal tax rates. Adjusting for these factors, after-inflation, after-tax personal income per capita in 2005 was about 13% higher than 2001 and 32% higher than 1996.

Formal educational attainment is increasing in the region. Among those of prime labour force age (ages 25-54), 28% had completed a college level program or university degree in 1991. By 2006, this rate had grown to 38%. Among younger workers (ages 25-34), the rate of post secondary completion grew from 34% to 46% over the same period.

8. *Mission*

The mission statement identifies the priority focus area of the Council. It represents the key longer-term result that the Council will be striving towards as they move forward with their work. The priority focus areas support the strategic directions of the provincial government. The statement also identifies the indicators that will assist both the Council and the public in monitoring and evaluating success. The Council will report on its mission statement in its 2010-11 Annual Report.

The mission statement of the St. Anthony-Port au Choix Regional Council of the Rural Secretariat, as written in its 2007-08 Activity Plan, is as follows:

By 2011, the St. Anthony-Port au Choix Regional Council will have participated in annual forums and annual dialogue with Government and within regions that will show the value of two-way conversations between citizens and Government.

Based on its work in 2007-08, the Council modified its Mission Statement in its 2008-11 Activity Plan. The new Mission statement, while largely similar, focuses more broadly on community engagement processes. This plan is available on-line at www.exec.gov.nl.ca/rural/publications.asp

9. *Report on Performance*

In its 2007-08 Activity Plan the Council identified three goals. This section outlines each of these goals, its measure and indicators, and describes activities undertaken by the Council to advance its achievement.

The Council's goals, objectives, measures and indicators for future years are identified in its Activity Plan for 2008-11. This plan is available on-line at www.exec.gov.nl.ca/rural/publications.asp

The activities and performance of the Council with respect to each of the goals as outlined below, is in support of the provincial government's strategic directions for the Rural Secretariat (Appendix A). In particular, the Council's performance allowed for the development of new partnerships with various stakeholders at the regional level, and provided a new regional forum to discuss citizens' perspectives on regional and rural sustainability. The Council recognizes that these strategic directions are long term in nature and believes that its activities in 2008-09 and beyond will further support these directions.

---	--

The St. Anthony-Port au Choix Regional Council is seeking to broaden public dialogue on long-term opportunities and challenges facing the region. It aims to provide input and advice to the provincial government on these opportunities and challenges. This is a long term process that will require ongoing collaboration with citizens, stakeholders and interests in the region.

The Council feels that its performance in 2007-08 has allowed it to make advancements in this process. Council is providing an open and transparent means for rural perceptions, realities, opportunities, challenges and potential solutions to be discussed, debated and deliberated. It has brought together citizens, stakeholders and interests from differing backgrounds with differing priorities and perspectives, differing bases of information and knowledge, and differing expectations. It has built confidence, leadership and trust, and it has broadened public awareness of issues. The Council feels that its achievements in 2007-08 will strengthen its performance in 2008-09.

10. Opportunities and Challenges Ahead

As the nature of the work of the Council is all-encompassing and long-term in nature, the opportunities and challenges faced by the Council remain fairly similar from year to year. However, it is these opportunities and challenges that guide the Council members in their work and provide them with the drive to move their agenda forward over the course of the year.

Collaboration

Collaboration requires a spirit of cooperation and a willingness to work together for mutual gain. It requires citizens, stakeholders and interests to step out of their ‘comfort zones’ and to look at issues through multiple perspectives and lenses. While the Council is committed to regional collaboration, it is aware that this is a long term project.

Long-term thinking

Thinking long-term, in the context of the work of the Council, is necessary if regional sustainability is to be achieved. Thinking long-term will be challenging for citizens, stakeholders and interests given that there are immediate issues to be addressed within the region.

Citizen Engagement

There is an opportunity through this process for citizens, stakeholders and interests throughout the region to inform public policy development. The success of this process will hinge on the ability of participants to listen to each other, and discuss issues in an open, informed and respectful manner. Continued citizen engagement is key in achieving its vision.

Vision Development

The vision statement for the Council is not intended to achieve a final form. It is intended to be an organic document that seeks to identify what the Council wants to achieve over the long term. As regional circumstances change over time, so too will regional priorities.
