- 4.7.8 For purposes of subsection 4.7.6(c), the net present value of the Specified Material is the net present value discounted at the prevailing industry-weighted average cost of capital. This net present value shall be determined through technical and economic feasibility and financing studies conducted by an agency or agencies qualified in conducting such studies, operating independently at arm's length from the Specified Material and Subsurface Resource rights holders, and conforming to accepted industry standards.

- 4.15.21 In an arbitration under section 4.15.19, an Arbitration Panel shall not vary a term or condition referred to in subsection 4.15.19(b) unless it determines that the term or condition will frustrate access or make it financially unfeasible.

4.15.28 Employees, contractors and agents of Persons providing public utilities in the Labrador Inuit Settlement Area may temporarily enter or cross Labrador Inuit Lands to deliver, manage, repair and maintain those public utilities, but nothing in this section creates or is intended to create a utility easement or a right of way over Labrador Inuit Lands.

4.15.29 Persons exercising access under sections 4.15.22, 4.15.23, 4.15.24, 4.15.26 or 4.15.28 shall not be required to pay any fee, charge or rent for that access.

4.16.2 Inuit have rights of access over Water overlying Crown land in the Labrador Inuit Settlement Area outside Labrador Inuit Lands for all purposes associated with the use and enjoyment of Labrador Inuit Lands and other rights under the Agreement. - 4.17.3 The Winter Trails are 6 metres (20 feet) wide.
- 4.17.4 A Winter Trail may be used by the public for transportation by snowmobile, dog sled or foot without notice to, or the consent of, the Nunatsiavut Government, while snow covered during the period from December 1 in one calendar year to May 15 in the following calendar year. This period may be varied by written agreement of the Parties.
- 4.17.5 A Non-Beneficiary who uses a Winter Trail on Labrador Inuit Lands:

 - (b) notwithstanding section 4.17.4, is subject to section 4.15.12.
- 4.17.6 Except as specifically provided in this part, all limitations on access to Labrador Inuit Lands apply to Non-Beneficiaries using a Winter Trail.
- 4.17.7 Canada and the Province have no obligation under the Agreement to establish, maintain or repair or provide for the establishment, maintenance or repair of Winter Trails or camp sites referred to in this part.
- 4.17.8 A Person who uses a Winter Trail assumes any and all risks associated with use of the Winter Trail and, for greater certainty, no suit, action, claim, demand or proceeding may be commenced or brought against the Nunatsiavut Government, an Inuit Community Government or any Designated Inuit Organization, Canada or the Province or any of their respective employees, agents or assigns by any Person in respect of any injury, loss, damage, cost or expense of any kind caused by or resulting from access to or use of a Winter Trail.

4.17.11 A Winter Trail is not a road or highway under any Law.

4.17.12 For greater certainty:

- (a) where a Winter Trail is located on Labrador Inuit Lands, the lands are Labrador Inuit Lands for all purposes, subject to this part; and
- (b) nothing in this part entitles a Non-Beneficiary to Harvest on Labrador Inuit Lands except under circumstances of emergency.

Part 4.18 Expropriation of Labrador Inuit Lands

4.18.1 Labrador Inuit Lands shall not be Expropriated except in accordance with this part.

4.18.2 Canada or the Province, prior to making a decision to Expropriate Labrador Inuit Lands, shall:

- (a) ensure that lands other than Labrador Inuit Lands are used, if other lands are reasonably available for the purpose for which the Labrador Inuit Lands are intended to be Expropriated;
- (b) make reasonable efforts to acquire the Labrador Inuit Lands through a negotiated land transfer agreement with the Nunatsiavut Government, rather than by Expropriation; and

- (a) the Lieutenant-Governor in Council in the case of an Expropriation by a Provincial Expropriation Authority; or

4.18.4 If a negotiated land transfer agreement in accordance with subsection 4.18.2(b) is not possible, the Expropriation Authority shall serve written notice of the proposed Expropriation on the Nunatsiavut Government and any Person claiming under the Nunatsiavut Government, including a Person holding an interest referred to in section 4.9.1.

4.18.5 If a piece or parcel of Labrador Inuit Lands is Expropriated, the Expropriation Authority may offer compensation in the form of other land of equivalent significance and value, but, except as provided in section 4.18.10, the Nunatsiavut

Government or a Person claiming under the Nunatsiavut Government, including a Person holding an interest referred to in section 4.9.1, shall not be required to take compensation in the form of other land.

4.18.6 If there is a Dispute over:

- (a) the value of, or interest in, the Labrador Inuit Lands to be Expropriated;
- (b) the amount or form of compensation;
- (c) costs; or
- (d) interest on the compensation,

the Dispute shall be referred to arbitration under chapter 21.

4.18.7 An Arbitration Panel shall consider the following matters when making an award in respect of a Dispute referred to in section 4.18.6:

- (a) loss of use of the Expropriated land to the Nunatsiavut Government and any Person claiming under the Nunatsiavut Government, including a Person holding an interest referred to in section 4.9.1;
- (b) the adverse effect of the Expropriation on other Labrador Inuit Lands;
- (c) damage that may be caused to any unexpropriated interest in the Expropriated land;

- (e) the cultural attachment of Inuit to the Expropriated land;
- (f) the effect on Wildlife, Habitat and Harvesting by Inuit;
- (g) any particular or special value to Inuit of the Expropriated land;
- (h) any and all costs reasonably associated with the Expropriation and any related negotiations, mediation or arbitration;
- (i) the market value of the Expropriated land;
- (j) whether other land is offered in compensation and, if so, the significance and value of that land; and
- (k) any other matter that may be considered under relevant Legislation.

- 4.18.8 Upon completion of Expropriation proceedings in compliance with this part, the Expropriated interest in Labrador Inuit Lands is no longer vested in Inuit and if the entire Inuit estate under section 4.4.1 in a piece of Labrador Inuit Lands is Expropriated, that piece ceases to be Labrador Inuit Lands.
- 4.18.9 Expropriated land that is no longer required for the purposes for which it was Expropriated may, with the consent of the relevant Parties, be conveyed to Inuit at an agreed price, or, in the absence of agreement, a price determined by an Arbitration Panel in accordance with chapter 21. Land conveyed to Inuit under this section shall be Labrador Inuit Lands.
- 4.18.10 If at any time 12 percent of Labrador Inuit Lands, as identified and selected by Inuit at the Effective Date have already been and remain Expropriated, no further Expropriation of Labrador Inuit Lands shall occur unless the Expropriation Authority provides compensation that includes an amount of previously Expropriated Labrador Inuit Lands equivalent in significance and value to the Labrador Inuit Lands proposed for Expropriation.
- 4.18.11 For greater certainty, lands transferred in a land transfer agreement referred to in subsection 4.18.2(b) are not Expropriated lands and shall not be included in the calculation of the percentage of Labrador Inuit Lands referred to in section 4.18.10 that have been and remain Expropriated.
- 4.18.12 Lands acquired by Inuit as compensation under this part are Labrador Inuit Lands.

Chapter 5: Water Management and Inuit Water Rights

Part 5.1 Definitions

5.1.1 In this chapter:

"Compensation Agreement" means an agreement referred to in subsection 5.6.2(a).

Part 5.2 General

5.2.1 Subject to this chapter, the Minister has the authority and responsibility for the management of the Use of Water in the Labrador Inuit Settlement Area.

5.2.2 Except as provided in sections 5.2.3 and 5.2.4, no Person may use Water in the Labrador Inuit Settlement Area without obtaining a Water Use Permit from the Minister.

5.2.3 Inuit may use Water in the Labrador Inuit Settlement Area for personal, family or domestic purposes, including hygiene and sanitation, for purposes related to the Inuit Domestic Harvest and the Inuit Domestic Fishery and for purposes of transportation associated with Harvesting without obtaining a Water Use Permit from the Minister and without charge, but nothing in this section precludes charges for Water services by the Person providing those services.

5.2.4 Nothing in this chapter affects any right that a natural person may have to use Water for domestic purposes pursuant to Legislation.

5.2.5 The exercise of the rights referred to in sections 5.2.3, 5.2.4 and 5.3.2 is subject to:

- (a) the public right of navigation;
- (b) the temporary Use of Water for emergency purposes, including fire fighting; and
- (c) Water Use rights existing on the Effective Date under a valid grant, lease, licence or other instrument or under a statute.

5.2.6 Nothing in this chapter permits a Person to discharge Waste into Water without a Water Use Permit from the Minister.

5.2.7 Subject to section 5.2.8, rights to use water in the Labrador Inuit Settlement Area that exist on the Effective Date under a valid grant, lease, licence or other instrument or under a statute continue in accordance with the applicable grant, lease, licence or other instrument or under the statute, subject to Laws of General Application.

- 5.2.8 Any renewal, extension or amendment to a right referred to in section 5.2.7 that is required for purposes of an extension or modification to a Development in existence on the Effective Date shall be effected by the issuance of a Water Use Permit in accordance with this chapter.
- 5.2.9 Except for Water Uses referred to in sections 5.2.3 and 5.2.4, all applications for the Use of Water in the Labrador Inuit Settlement Area and all applications for renewals, extensions, or amendments of permitted Water Uses in the Labrador Inuit Settlement Area are subject to Environmental Assessment under chapter 11 prior to the issuance, renewal, extension or amendment of the Water Use Permit.
- 5.2.10 A decision of the Minister respecting a Water Use Permit in the Labrador Inuit Settlement Area must conform to the Land Use Plan.
- 5.2.11 Nothing in this chapter precludes the Nunatsiavut Government, an Inuit Community Government, an Inuk or an Inuit Business from selling Water in accordance with Laws of General Application after obtaining a Water Use Permit.
- 5.2.12 Notwithstanding any other provision of this chapter, Labrador Inuit Lands may not be flooded or used for the storage or diversion of Water by any Person without the consent of the Nunatsiavut Government.
- 5.2.13 Except as provided in sections 5.2.3, 5.2.14, 5.2.15, 5.3.2 and subsection 5.5.4(b) this chapter does not apply to a National Park, National Park Reserve, National Marine Conservation Area or National Marine Conservation Area Reserve.
- 5.2.14 Section 5.2.3 shall not be construed so as to entitle Inuit to remove Water from a National Park, National Park Reserve, National Marine Conservation Area, National Marine Conservation Area Reserve, Federal Wildlife Area or Migratory Bird Sanctuary except when the Water is carried by an Inuk for purposes of section 5.2.3 when travelling.
- 5.2.15 If a Water Use in a National Park, National Park Reserve, National Marine Conservation Area, National Marine Conservation Area Reserve, Federal Wildlife Area or Migratory Bird Sanctuary affects the Water rights of Inuit under section 5.3.2, Inuit shall be entitled to compensation in respect of the factors set out in section 5.6.5 or as set out in the relevant Park Impacts and Benefits Agreement or Protected Area Agreement.

Part 5.3 Inuit Water Rights

- 5.3.1 Subject to sections 5.2.4 and 5.2.7, a Person may not use Water that is on, in, under or flowing through Labrador Inuit Lands except in accordance with part 5.4.
- 5.3.2 Subject to this chapter, Inuit have the right to enjoy Water that is on, in, under, flowing through or adjacent to Labrador Inuit Lands substantially unaltered as to quantity, quality and rate of flow.

5.3.3 The right referred to in section 5.3.2 is vested in the Nunatsiavut Government for the use and benefit of Inuit.

Part 5.4 Administration of Water Uses in Labrador Inuit Lands

5.4.1 No Person, including the Nunatsiavut Government, may use Water that is on, in, under or flowing through Labrador Inuit Lands for any purpose other than one referred to in section 5.2.3 or 5.2.4 without a Water Use Permit issued by the Minister, but the Water Use Permit shall be issued without payment of application fees.

5.4.2 If the Nunatsiavut Government wishes to use Water that is on, in, under or flowing through Labrador Inuit Lands for a purpose other than one referred to in section 5.2.3 or 5.2.4 it shall submit an application to the Minister who shall approve the application and issue a Water Use Permit in accordance with this part.

5.4.3 If a Person other than the Nunatsiavut Government wishes to use Water that is on, in, under or flowing through Labrador Inuit Lands for a purpose other than one referred to in section 5.2.3 or 5.2.4, that Person shall, before submitting an application for a Water Use Permit to the Minister under section 5.4.6, submit the proposed application to the Nunatsiavut Government. For purposes of this part, the proposed application submitted to the Nunatsiavut Government is referred to as a “proposal”.

5.4.4 The Nunatsiavut Government may reject a proposal or approve a proposal with or without terms and conditions and shall inform the Minister of its decision.

5.4.5 The following are deemed to have been approved by the Nunatsiavut Government under section 5.4.4, notwithstanding section 5.4.3:

- (a) a Use of Water on, in, under or flowing through Labrador Inuit Lands in relation to Exploration that commenced prior to the Effective Date in accordance with an exploration plan approved under Provincial Legislation if the Person authorized to carry out the Exploration holds a valid grant, lease, licence or other instrument for the Use of Water;
- (b) a Use of Water on, in, under or flowing through Labrador Inuit Lands in relation to quarrying that commenced prior to the Effective Date in accordance with a quarry permit issued under Provincial Legislation if the Person authorized to carry out the quarrying holds a valid grant, lease, licence or other instrument for the Use of Water; or
- (c) a Use of Water on, in, under or flowing through Labrador Inuit Lands in relation to Exploration in Labrador Inuit Lands or quarrying in Labrador Inuit Lands outside Specified Materials Lands in accordance with a Work Plan that has been approved under section 4.11.15.

- 5.4.6 If a proposal is approved by the Nunatsiavut Government, the Person may then submit that proposal, as approved by the Nunatsiavut Government, as an application to the Minister, who shall, in accordance with this part, determine whether to issue a Water Use Permit.
- 5.4.7 The Minister shall not reject an application referred to in section 5.4.6 unless the Minister determines that the proposed Water Use will have adverse effects outside Labrador Inuit Lands for which compensation of a third party whose rights are detrimentally affected is not possible or would not be adequate.
- 5.4.8 Notwithstanding section 5.4.7, the Minister shall not refuse to issue a Water Use Permit for an application referred to in section 5.4.6 that is for community Water supply purposes.
- 5.4.9 Nothing in section 5.2.11, 5.4.7 or 5.4.8 affects the discretion of the Minister to prohibit, in accordance with Laws of General Application, the bulk removal of water from Newfoundland and Labrador.
- 5.4.10 Nothing in this chapter affects the discretion of the Minister to refuse to issue a Water Use Permit for reasons of public health.
- 5.4.11 Prior to rejecting an application for the Use of Water referred to in section 5.4.6, the Minister shall Consult the Nunatsiavut Government.
- 5.4.12 Prior to establishing terms and conditions with respect to an application for the Use of Water referred to in section 5.4.6 that are different from those established by the Nunatsiavut Government under section 5.4.4, the Minister shall Consult the Nunatsiavut Government with a view to reaching an agreement. If no agreement is reached, the Nunatsiavut Government may:
- (a) reject the issuance of the Water Use Permit, in which case it shall not be issued; or
 - (b) agree to the issuance of the Water Use Permit on the terms and conditions established by the Minister.
- 5.4.13 A Water Use Permit issued to the Nunatsiavut Government may be assigned by the Nunatsiavut Government to an Inuk or Inuit Business.
- 5.4.14 Notwithstanding that the definition of Water does not include Tidal Waters, if a power Development is proposed within the area set out in the Map Atlas (shown for illustrative purposes only in schedule 5-A) that substantially alters the quantity, quality or rate of flow of Tidal Waters adjacent to Labrador Inuit Lands within the area shown in schedule 5-A, the Development shall not be permitted to proceed until the Nunatsiavut Government and the Developer have concluded a Compensation Agreement and, for purposes of negotiations or an arbitration related to the Compensation Agreement, Inuit shall be entitled to claim for losses likely to result from the substantial alteration to the quantity, quality or rate of flow

of the Tidal Waters adjacent to Labrador Inuit Lands within the area shown in schedule 5-A.

Part 5.5 Administration of Water Uses in the Labrador Inuit Settlement Area Outside Labrador Inuit Lands

5.5.1 Before determining whether to issue a Water Use Permit in the Labrador Inuit Settlement Area outside Labrador Inuit Lands, or a Water Use Permit outside the Labrador Inuit Settlement Area that may affect Water or a Water Use in the Labrador Inuit Settlement Area, the Minister shall Consult the Nunatsiavut Government with respect to the application for the Water Use Permit and shall, in making the determination, take into account:

- (a) the impact of the proposed Water Use on Fish, Fish Habitat, Aquatic Plants, Wildlife, Plants and Habitat in the Labrador Inuit Settlement Area;
- (b) the impact of the proposed Water Use on Harvesting rights of Inuit under the Agreement;
- (c) the impact of the proposed Water Use on the quantity, quality or rate of flow of Water on, in, under, flowing through or adjacent to Labrador Inuit Lands;
- (d) measures to Mitigate any negative effects or impacts of the proposed Water Use;
- (e) existing water rights; and
- (f) any other matters that the Nunatsiavut Government and the Minister consider relevant.

5.5.2 Notwithstanding the definition of Consultation, if a time is established under a Law of General Application for purposes of the issuance of Water Use Permits outside the Labrador Inuit Settlement Area, Consultation with respect to the issuance of a Water Use Permit under section 5.5.1 shall be carried out within that time and the Nunatsiavut Government shall be given the full period of time available under the Law to complete the Consultation.

5.5.3 If the Minister, after Consulting the Nunatsiavut Government in accordance with section 5.5.1, determines that the Water Use may affect Inuit rights under the Agreement, the Minister shall not issue a Water Use Permit in the Labrador Inuit Settlement Area outside Labrador Inuit Lands, unless the Minister also determines that:

- (a) there is no alternative that could reasonably satisfy the requirements of the applicant; and

- (b) if there is no reasonable alternative, there are no reasonable measures whereby the applicant could avoid affecting Inuit rights under the Agreement.

5.5.4 If the proposed Water Use referred to in section 5.5.1 may substantially alter the quantity, quality or rate of flow of Water on, in, under, flowing through or adjacent to Labrador Inuit Lands, the Minister shall not issue the Water Use Permit unless the Minister has made the determinations referred to in section 5.5.3 and:

- (a) a Compensation Agreement is in effect; or
- (b) in circumstances where a Park Impacts and Benefits Agreement or Protected Area Agreement referred to in section 5.2.15 or an Inuit Impacts and Benefits Agreement is required, a Park Impacts and Benefits Agreement, Protected Area Agreement or Inuit Impacts and Benefits Agreement that includes provisions respecting the rights of Inuit to compensation under this part has been concluded.

5.5.5 The Minister shall, as soon as practicable, Consult the Nunatsiavut Government, the Torngat Joint Fisheries Board and the Torngat Wildlife and Plants Co-Management Board on matters set out in section 5.5.6 and any proposed changes to Legislation, policies or guidelines that may affect the Use of Water in the Labrador Inuit Settlement Area.

5.5.6 Except as provided in this chapter, nothing in part 5.4 restricts the Minister's power to:

- (a) use Water on, in, under, flowing through or adjacent to Labrador Inuit Lands for purposes related to research, protection and conservation of Water, aquatic life and aquatic habitat;
- (b) establish standards and measures for the protection of Water, including community Water supplies, on, in, under, flowing through or adjacent to Labrador Inuit Lands;
- (c) use or authorize the Use of Water on, in, under, flowing through or adjacent to Labrador Inuit Lands for purposes of fighting fires;
- (d) establish flood control measures, develop flood plain management strategies and designate flood risk zones with respect to Water on, in, under, flowing through or adjacent to Labrador Inuit Lands;
- (e) carry out or authorize hydrologic data collection and hydrologic research with respect to Water on, in, under, flowing through or adjacent to Labrador Inuit Lands; and
- (f) use or authorize the Use of Water on, in, under, flowing through or adjacent to Labrador Inuit Lands for any other similar purpose that is in the common

interest of Inuit and the other residents of the Labrador Inuit Settlement Area,

but nothing in this section permits a Use of Water with respect to Water on, in, under, flowing through or adjacent to Labrador Inuit Lands for purposes of a Development.

- 5.5.7 For greater certainty, the Nunatsiavut Government has no responsibility and incurs no liability with respect to any matter referred to in section 5.5.6 and nothing in section 5.5.6 derogates from Inuit rights under part 5.3.
- 5.5.8 If the Province decides to delegate responsibility for the management of Water or the issuance of Water Use Permits in the Labrador Inuit Settlement Area or the issuance of Water Use Permits that may affect Water in the Labrador Inuit Settlement Area to a board, body or authority, at least one member of the board, body or authority shall be appointed by the Nunatsiavut Government.
- 5.5.9 The Minister shall not unreasonably deny an application by any Person for the Use of Water in the Labrador Inuit Settlement Area for purposes of an Inuit Community or for purposes of a Development in Labrador Inuit Lands where Water for that purpose is not readily available in Labrador Inuit Lands.

Part 5.6 Compensation

- 5.6.1 The rights of Inuit under part 5.3 and section 5.4.14 entitle Inuit to compensation in accordance with this part.
- 5.6.2 No Water Use Permit shall be issued to a Developer in respect of a Development in the Labrador Inuit Settlement Area that may substantially alter the quantity, quality or rate of flow of Water on, in, under, flowing through or adjacent to Labrador Inuit Lands unless, after the Minister has made the determinations referred to in section 5.5.3:
- (a) the Developer has entered into a compensation agreement with the Nunatsiavut Government in accordance with this part or a compensation agreement has been established by an Arbitration Panel in accordance with section 5.6.3 and this part; or
 - (b) the Developer and the Nunatsiavut Government have agreed on compensation provisions regarding the matters referred to in section 5.6.5 in an Inuit Impacts and Benefits Agreement.
- 5.6.3 Unless an Inuit Impacts and Benefits Agreement has been reached, a Developer and the Nunatsiavut Government shall negotiate for the purpose of reaching a Compensation Agreement. If a Compensation Agreement has not been concluded by the Nunatsiavut Government and the Developer within 60 clear days from the commencement of the negotiations, the Nunatsiavut Government or the Developer may refer any unresolved issue relating to the content, terms or conditions of the

Compensation Agreement to arbitration under chapter 21 and the Arbitration Decision shall be made within 90 clear days from the date of the referral.

- 5.6.4 For purposes of section 5.6.3, the negotiations shall be deemed to have commenced seven clear days from the determinations by the Minister referred to in section 5.5.3.
- 5.6.5 If a Dispute over compensation is referred to arbitration under this chapter, chapter 7 or chapter 9, the Arbitration Panel, in determining the compensation to be awarded to Inuit under a Compensation Agreement, Inuit Impacts and Benefits Agreement or Protected Area Agreement referred to in section 5.2.15, shall take into account:
- (a) the anticipated adverse effects, including incremental and cumulative effects, of the change in quantity, quality or rate of flow of Water on, in, under, flowing through or adjacent to Labrador Inuit Lands that are likely to result from the proposed Water Use;
 - (b) the anticipated nuisance, inconvenience, disturbance or noise caused by the change in quantity, quality or rate of flow of Water on, in, under, flowing through or adjacent to Labrador Inuit Lands that is likely to result from the proposed Water Use;
 - (c) the anticipated adverse effects of the change in quantity, quality or rate of flow of Water upon pre-existing Water Uses by Inuit or in Labrador Inuit Lands that are likely to result from the proposed Water Use;
 - (d) the cultural attachment of Inuit to Labrador Inuit Lands, including Water, that would be adversely affected by the change in quantity, quality or rate of flow of Water;
 - (e) the decrease in value of Labrador Inuit Lands, including Water, that are likely to be affected by the change in quantity, quality or rate of flow of Water;
 - (f) the level of damage that is likely to result from the Water Use;
 - (g) interference with Inuit rights under the Agreement; and
 - (h) any other matter the Arbitration Panel may consider relevant for purposes of determining the compensation award.
- 5.6.6 An Arbitration Panel shall presume that a substantial change in the quantity, quality or rate of flow of Water on, in, under, through or adjacent to Labrador Inuit Lands entitles the Nunatsiavut Government to compensation.
- 5.6.7 Unless otherwise agreed by the Nunatsiavut Government and a Developer, a determination of compensation made by an Arbitration Panel under section 5.6.3 shall provide for periodic payments and periodic review of the payments for the

purpose of adjustments, having due regard to the nature and duration of the Water Use.

5.6.8 An Arbitration Panel may, if it receives a request for compensation in kind from the Nunatsiavut Government, award compensation under a Compensation Agreement, Inuit Impacts and Benefits Agreement or Protected Area Agreement referred to in section 5.2.15 in the form of compensation in kind or partly in the form of monetary compensation and partly in the form of compensation in kind.

5.6.9 Nothing in this part restricts any of the rights or remedies of Inuit in the event that a Person:

- (a) uses Water without a required Water Use Permit;
- (b) breaches the terms and conditions of a Water Use Permit so as to affect Inuit rights under section 5.3.2; or
- (c) breaches the terms or conditions of a Compensation Agreement.

6.1.1 In this chapter:

"Marine Protected Area Agreement" means an agreement referred to in section 6.4.5 or 6.4.6;

"Ocean Areas Adjacent to the Zone" means those waters lying eastward of the Zone that are bounded to the south by latitude 54° north and extending, at any point, as far as the outer edge of the continental margin or a distance of 200 nautical miles from the baselines from which the breadth of the territorial sea of Canada is measured, whichever is greater;

"Petroleum Development Plan" means a plan submitted under subsection 139(2) of the *Canada-Newfoundland Atlantic Accord Implementation Act* and subsection 135(2) of the *Canada-Newfoundland and Labrador Atlantic Accord Implementation Newfoundland and Labrador Act* for the purpose of obtaining approval of the general approach of developing a pool or field as proposed in the plan; and

"Regulator" means Canada, the Province or other regulator having jurisdiction or authority with respect to a matter, including the Canada-Newfoundland Offshore Petroleum Board.

Part 6.2 General

6.2.1 This chapter shall be interpreted in a manner consistent with:

- (a) Canada's sovereignty, sovereign rights, jurisdiction and international obligations; and
- (b) the Province's jurisdiction in the Labrador Inuit Settlement Area.

6.2.2 This chapter does not apply to a National Park, National Park Reserve, National Marine Conservation Area, National Marine Conservation Area Reserve or Protected Area.

Part 6.3 Ocean Management

6.3.1 Before finalizing a strategy for the management of estuarine, coastal and marine areas that would directly apply to the estuarine, coastal and marine areas of the Labrador Inuit Settlement Area, the Minister shall Consult the Nunatsiavut Government with respect to the strategy.

- 6.3.2 The Minister shall Consult the Nunatsiavut Government in the development and implementation of plans for the integrated management of activities or measures that directly affect the estuarine, coastal and marine areas of the Labrador Inuit Settlement Area.
- 6.3.3 The Consultation referred to in section 6.3.2 shall include Consultation about:
- (a) the establishment of, and possible Inuit participation in, advisory or management bodies; and
 - (b) the establishment of environmental guidelines, objectives and criteria respecting the quality of the estuarine, coastal and marine areas of the Labrador Inuit Settlement Area.

Part 6.4 Marine Protected Areas

- 6.4.1 If the Minister proposes to develop a system of Marine Protected Areas, the Minister shall Consult the Nunatsiavut Government to the extent that the system applies to the estuarine, coastal and marine areas of the Labrador Inuit Settlement Area.
- 6.4.2 The Minister shall Consult the Nunatsiavut Government prior to establishing, disestablishing or changing the boundaries of a Marine Protected Area in the Zone.
- 6.4.3 Nothing in this part prevents the Nunatsiavut Government from recommending to the Minister:
- (a) the establishment of Marine Protected Areas in the Zone; and
 - (b) terms and conditions relating to management plans for Marine Protected Areas in the Zone.
- 6.4.4 The Minister shall accept, vary or reject a recommendation made under section 6.4.3 and, in the case of a rejection or variance, shall provide the Nunatsiavut Government with the reasons for the decision in writing.
- 6.4.5 Prior to the establishment of a Marine Protected Area in the Zone, Canada and the Nunatsiavut Government shall, unless otherwise agreed between them, negotiate a Marine Protected Area agreement.
- 6.4.6 If Canada and the Nunatsiavut Government cannot conclude an agreement referred to in section 6.4.5 within 180 clear days from the commencement of negotiations for that purpose, or any other time agreed to by them, they shall select a conciliator who shall submit a report to them for consideration. If Canada and the Nunatsiavut Government cannot agree on the selection of the conciliator, the Minister may select the conciliator. If Canada and the Nunatsiavut Government cannot agree following conciliation, each party shall, within 60 clear days from the conclusion

of the conciliation proceedings, submit a report to the Minister for the Minister's consideration and decision on the terms of the agreement.

6.4.7 A Marine Protected Area Agreement may include any matter connected with a Marine Protected Area, including those matters identified in schedule 6-A.

6.4.8 A Marine Protected Area Agreement:

- (a) shall not form part of the Agreement; and
- (b) is not intended to be a treaty or land claims agreement and is not intended to recognize or affirm aboriginal or treaty rights within the meaning of sections 25 and 35 of the *Constitution Act, 1982*.

6.4.9 In the event of an emergency, the Minister may establish, disestablish or change the boundaries of a Marine Protected Area in the Zone without first following the process set out in sections 6.4.2, 6.4.5 and 6.4.6. The Minister shall advise the Nunatsiavut Government as soon as practicable after doing so.

6.4.10 Federal publications informing the public about Marine Protected Areas in the Zone must be made available in Inuktitut.

Part 6.5 Marine Shipping

6.5.1 The Minister shall Consult the Nunatsiavut Government prior to:

- (a) the establishment by the Minister of marine navigation services in the Zone; and
- (b) the issuance of approvals or exemptions under the *Navigable Waters Protection Act* in the Zone.

6.5.2 Section 6.5.1 does not apply in the event of an emergency.

Part 6.6 Development and Exploration

6.6.1 Canada and the Province shall Consult the Nunatsiavut Government prior to permitting, approving or authorizing a Development of Minerals in the Zone, including any marine transportation in the Zone directly associated with the Development. The Consultation shall take into consideration Inuit rights in the Zone under the Agreement and that Inuit resident in the Labrador Inuit Settlement Area are adjacent to the Zone.

6.6.2 The Nunatsiavut Government may make recommendations to the Minister regarding the potential impact on the integrity of landfast sea ice of a Development or Petroleum Exploration in the Labrador Inuit Settlement Area, including any

marine transportation in the Zone directly associated with the Development or Petroleum Exploration.

6.6.3 A Regulator shall Consult the Nunatsiavut Government prior to:

If the license referred to in paragraph 6 is issued, the Nunatsiavut Government or designated operator must make every attempt to establish the Aquaculture Facility within two years from the date of the license and if the Nunatsiavut Government or designated operator fails, without just cause, to establish the Aquaculture Facility within that time, the Minister may declare that the right of first refusal of the Nunatsiavut Government has lapsed.
9. If the Minister declares that the right of first refusal of the Nunatsiavut Government has lapsed or that the licence application of the Nunatsiavut Government referred to in paragraph 6 has been finally rejected, the opportunity to obtain an Aquaculture licence may then be made available to the original applicant or other third party and the Nunatsiavut Government shall not have a further right of first refusal in relation to the application, except at the discretion of the Minister.

10. The Minister may extend any time period set out in this schedule when requested by the Nunatsiavut Government.

14.2.3 Nothing in this chapter is intended or is to be construed so as to limit or reduce the liability of a Developer to carry out or pay for Mitigation, compensation or remedial measures under other chapters of the Agreement or under applicable Laws.

14.2.4 Nothing in this chapter shall be construed as limiting or restricting any right of recourse that a Developer who is liable under section 14.5.1 may have against any Person other than the Claimant.

14.3.1 This chapter applies to:

- (a) Developments in Labrador Inuit Lands;

14.4.2 In respect of commercial marine transportation in or through the Labrador Inuit Settlement Area or Waters Adjacent to the Zone, other than marine transportation to which this chapter applies under subsection 14.3.1(c), Inuit are entitled to Compensation for losses or damages of the kind set out in section 14.5.1 under federal and Provincial Laws. Subject to section 14.4.3, provision for such Compensation under federal or Provincial Laws in the Labrador Inuit Settlement Area and Waters Adjacent to the Zone shall provide protection for Inuit at least as favourable as that afforded to Harvesters in other marine areas under federal or provincial Laws.

14.4.3 Nothing in section 14.4.2 shall be construed so as to apply or extend any federal Legislation to any marine area to which that Legislation does not apply by virtue of its own provisions.

Part 14.5 Absolute Liability

14.5.1 A Developer is liable absolutely, without proof of fault or negligence, for loss or damage suffered by a Claimant as a result of a Development, in respect of:

14.5.3 Section 14.5.1 does not apply to a Developer whose Development is in operation on the Effective Date unless that Development is substantially expanded or modified after that date.

14.5.4 For purposes of section 14.5.1, Claimants shall make all reasonable attempts to mitigate the loss or damage referred to in that section.

Part 14.6 Legislation Limiting Liability

14.6.1 The Nunatsiavut Government may make laws in Labrador Inuit Lands in relation to the limitation of liability under part 14.5.

14.6.2 If federal or Provincial Legislation provides for the limitation of liability of Developers under this chapter or for methods of setting limits on the liability of such Developers, the Legislation:

- (a) shall require proof of financial responsibility and provide for security deposits by such Developers;
- (b) shall set limits on liability at levels sufficient to cover reasonably foreseeable damages in relation to various Developments; and

- (c) may provide for any other matters not inconsistent with this chapter.
- 14.6.3 Recognizing Inuit concerns regarding collection of Compensation, Governments shall give consideration to including enforcement mechanisms in Legislation to implement this chapter.

- 14.7.3 If a Claim is not settled within 30 clear days from the date of receipt by the Developer of the notice referred to in section 14.7.2, a Claimant may refer the Claim to an Arbitration Panel.
- 14.7.4 An Arbitration Panel, in hearing a Claim, shall give weight to Inuit traditional knowledge and shall take into account the social, cultural, economic, and commercial importance of Wildlife, Plants, Fish and Aquatic Plants to Inuit.
- 14.7.5 An Arbitration Panel, within 30 clear days from the date of completing the hearing of a Claim, shall determine:
 - (a) liability under part 14.5 with respect to the Claim; and
 - (b) Compensation.
- 14.7.6 In determining an amount of Compensation to be awarded for loss or damage referred to in section 14.5.1, an Arbitration Panel may take into account any act by the Claimant which contributed to the Claimant's loss or damage.
- 14.7.7 As a general principle, Compensation shall not be a guaranteed annual income in perpetuity. A Compensation award may be reviewed by an Arbitration Panel at the request of any party to the arbitration that is affected by the award but only at such time as new facts or circumstances may arise or new evidence may become available.

- 14.7.8 When an Arbitration Panel decides where to hold a hearing, the convenience of the Claimant shall be a major factor.
- 14.7.9 If an Arbitration Panel determines that loss or damage referred to in section 14.5.1 resulted from the Development of more than one Developer, those Developers shall be jointly and severally liable for the whole loss or damage.
- 14.7.10 This chapter is without prejudice to any other rights or remedies that the Claimant may have under Laws of General Application with respect to loss or damage arising out of a Development. However, a Claimant who makes a Claim may not pursue any rights or remedies under Laws of General Application with respect to any loss or damage for which the Claim is made.
- 14.7.11 If a Claim against a Developer is dismissed, the same Claim may not be made again against the same Developer, but the Claimant may initiate another Claim against another Developer.

17.42.4 For greater certainty, a Surface Interest assigned under section 17.42.3:

Chapter 18: Fiscal Financing Agreements

Part 18.1 General

- 18.1.1 Every five years, or at other intervals agreed to by the Parties, the Parties will negotiate a Fiscal Financing Agreement by which funding will be provided to the Nunatsiavut Government for the provision of programs and services, to be agreed upon in the Fiscal Financing Agreement, to Inuit and, where applicable, to other Persons in the Inuit Communities, at levels reasonably comparable to programs and services generally prevailing in communities of similar size and circumstances in Labrador.
- 18.1.2 A Fiscal Financing Agreement:
- (a) shall not form part of the Agreement; and
 - (b) is not intended to be a treaty or land claims agreement and is not intended to recognize or affirm aboriginal or treaty rights within the meaning of sections 25 and 35 of the *Constitution Act, 1982*.
- 18.1.3 Any financial obligation that a Party may assume under a Fiscal Financing Agreement is subject to the appropriation of funds:
- (a) in the case of Canada, by the Parliament of Canada;
 - (b) in the case of the Province, by the House of Assembly; and
 - (c) in the case of the Nunatsiavut Government, by the legislative body of the Nunatsiavut Government.
- 18.1.4 Unless otherwise agreed by the Parties in a Fiscal Financing Agreement and except as provided in sections 17.29.1 and 17.31.23, the creation of the Nunatsiavut Government, the recognition of Nunatsiavut Government legislative authority under the Agreement and the exercise of Nunatsiavut Government legislative authority do not create or imply any financial or legal obligation or responsibility on the part of any Party for the costs of, or associated with, the Nunatsiavut Government, its institutions and infrastructure or for the exercise of Nunatsiavut Government jurisdiction, including the provision of programs and services to Inuit.
- 18.1.5 If a Fiscal Financing Agreement expires before the Parties have negotiated a successor agreement, the terms of the Fiscal Financing Agreement shall continue in effect for a period of two years after its original expiry date, or any additional period agreed to by the Parties.

Part 18.2 Fiscal Financing Agreement Negotiations

18.2.1 In negotiating a Fiscal Financing Agreement, the Parties shall take into account, as appropriate, the following:

- (a) the prevailing fiscal policies of Canada and the Province;
- (b) the Nunatsiavut Government's own source revenue capacity as determined under an own source revenue agreement or, in the absence of an own source revenue agreement, under the Fiscal Financing Agreement;
- (c) efficiency and effectiveness in the provision of programs and services;
- (d) the remoteness, location and accessibility of Labrador Inuit Lands and the Inuit Communities;
- (e) population and demographic characteristics of Inuit receiving services and programs from the Nunatsiavut Government and, where applicable, of other Persons receiving agreed-upon programs and services from the Nunatsiavut Government;
- (f) the desirability of reasonably stable, predictable and flexible funding arrangements; and
- (g) any other matters that may be agreed to by the Parties.

18.2.2 In negotiating a Fiscal Financing Agreement, the Parties may take into account, as appropriate, the following:

- (a) the costs necessary to establish and operate Nunatsiavut Government institutions;
- (b) training requirements and development of capacities for Nunatsiavut Government purposes;
- (c) the jurisdictions, authorities, obligations, programs and services of the Nunatsiavut Government or to be assumed by the Nunatsiavut Government; and
- (d) any other matter that may be agreed to by the Parties.

18.2.3 Each Fiscal Financing Agreement shall include provisions for:

- (a) program transfer mechanisms;
- (b) supplementary or emergency funding procedures;
- (c) payment mechanisms;

- (d) dispute resolution procedures;
- (e) information exchange;
- (f) accountability including accounting, reporting and audit provisions; and
- (g) negotiation of the next Fiscal Financing Agreement.

Part 18.3 Own-Source Revenue Capacity of the Nunatsiavut Government

18.3.1 Every ten years or at other intervals agreed to by the Parties, the Parties shall negotiate the manner in which the Nunatsiavut Government's own-source revenue capacity will be taken into account under the relevant Fiscal Financing Agreements.

18.3.2 In determining the Nunatsiavut Government's own-source revenue capacity and the manner in which it will be taken into account, the Parties shall apply the following:

- (a) the Nunatsiavut Government's own-source revenue capacity shall not include any Capital Transfer payments received by the Designated Inuit Organization or Inuit;
- (b) the Nunatsiavut Government's own-source revenue capacity shall not include any implementation payments, or any interest thereon, received by the Nunatsiavut Government under chapter 23;
- (c) there shall be a fair basis of comparison between the Nunatsiavut Government's revenue capacity from commercial activities carried on by the Nunatsiavut Government, including wholly owned corporations, and revenue capacity of other Canadian governments from taxation of similar commercial activities;
- (d) the Nunatsiavut Government's own-source revenue capacity shall not include the Revenue received by the Nunatsiavut Government from the Province under part 7.5;
- (e) the Nunatsiavut Government's own-source revenue capacity shall not include proceeds from the sale or Expropriation of Labrador Inuit Lands;
- (f) the Nunatsiavut Government's own-source revenue capacity shall not be taken into account so as to reduce unreasonably the incentive of the Nunatsiavut Government or Inuit Community Governments to raise revenues; and
- (g) the Nunatsiavut Government's own-source revenue capacity shall be phased in gradually over periods agreed to by the Parties.

Chapter 19: Capital Transfers

Part 19.1 Payment of Capital Transfer

19.1.1 Canada shall make capital transfer payments to a Designated Inuit Organization in accordance with schedule 19-A.

Part 19.2 Negotiation Loan Payment

19.2.1 The Nunatsiavut Government shall make negotiation loan repayments to Canada in accordance with schedule 19-B.

19.2.2 The Nunatsiavut Government may make any payment due under section 19.2.1 from permitted funds. In this section "permitted funds" means any funds available to the Nunatsiavut Government from time to time other than amounts:

- (a) that are received by the Nunatsiavut Government pursuant to sections 23.5.1 and 23.6.1; or
- (b) that are borrowed by the Nunatsiavut Government against security granted directly or indirectly against amounts payable to the Nunatsiavut Government pursuant to chapter 19 or 23.

19.2.3 If the Nunatsiavut Government is in uncured default of any amount past due under section 19.2.1, Canada may deduct such amount from any payment to be made under section 19.1.1 plus accrued interest at a rate that is the same as the 14-year amortized Consolidated Revenue Fund Lending Rate utilized in the calculation of the provisional schedule of payments set out in schedule 19-A, less 0.125 percent, compounded annually.

19.2.4 Notwithstanding section 19.2.1, the Nunatsiavut Government may, at its option, repay or accelerate the repayment of the outstanding negotiation loan amounts without bonus or penalty, at its option, such that the present value of the remaining negotiation loan repayments under schedule 19-B remains the same when calculated using a discount rate that is the same as the 14-year amortized Consolidated Revenue Fund Lending Rate utilized in the calculation of the provisional schedule of payments set out in schedule 19-A, less 0.125 percent.

19.2.5 Except as provided in this part, terms and conditions of the negotiation loans shall be unaffected.

Part 19.3 Loans Against Capital Transfer

19.3.1 At any time after three years from the Effective Date, the Designated Inuit Organization may request a loan from Canada against the then unpaid balance of the Capital Transfer.

- 19.3.2 If Canada agrees to consider the request, the Minister of Finance, representing Canada, and the Designated Inuit Organization shall negotiate the amount and terms and conditions of the loan.
- 19.3.3 The Minister of Finance is authorized to consider a request and to grant a loan, on terms and conditions as agreed, up to the amount requested, if the Minister of Finance is satisfied that:
- (a) the loan is intended for the social or economic development of Inuit;
 - (b) in any year, the unpaid balance of the Capital Transfer is sufficient to cover the total of all outstanding loan payments and interest required of the Designated Inuit Organization;
 - (c) the terms and conditions of the loan, including the amount of the loan, the timing and amount of repayments, and the interest rate:
 - (i) are consistent with Government of Canada policies and practices for granting loans; and
 - (ii) enable the Minister of Finance to manage public disbursements and ensure fiscal constraint; and
 - (d) the amount of the loan to be paid is available for that purpose from the applicable Parliamentary appropriation.
- 19.3.4 A condition of any loan made under this part shall be that the Designated Inuit Organization pay the amount that would reduce the outstanding balance of the negotiation loan repayments referred to in section 19.2.1 as at the time of the loan by the same proportion as the amount loaned under this part bears to the unpaid balance, as at the time of the loan, of the payments referred to in section 19.2.4. The amount may be paid at any time during the term of the loan and shall be credited against the last payments in schedule 19-B.

Notes for Finalizing Schedule 19-A

1. These notes will not form part of the Agreement. The purpose of these notes is to enable the Parties to calculate the amounts to be shown in the provisional schedule of payments under schedule 19-A and the amounts for the final schedule of payments.

2. In these notes:
- “FDDIPI” means the Final Domestic Demand Implicit Price Index for Canada published by Statistics Canada; and
- “Transition Date” means the date that is 15 months after the signature of the Agreement.
3. The provisional schedule of payments is calculated such that:
- the provisional schedule will provide for a first payment on the Effective Date and subsequent payments on each anniversary date;
 - the present value of the amounts listed in the provisional schedule will equal \$140.0 million multiplied by the FDDIPI for the first quarter of 2003 and by dividing the resulting product by the value of the FDDIPI for the second quarter of 1997; and
 - the present value referred to in note 3(b) is calculated using as a discount rate 4.755 percent, which is the 14-year amortized Consolidated Revenue Fund Lending Rate that the Minister of Finance for Canada has approved for August 2003, less 0.125 percent.
4. The final schedule of payments will be calculated prior to Effective Date by multiplying each amount in the provisional schedule of payments by the value of the FDDIPI for the latest quarter available at that date or the value of FDDIPI for the quarter that includes the Transition Date, whichever is less, and by dividing the resulting product by the value of the latest available FDDIPI for the first quarter of 2003.
5. If the period between the signature of the Agreement and the Effective Date exceeds 15 months, each amount in the provisional schedule will be adjusted by multiplying the resulting amount in note 4 by
- $$(1 + DR)^Y \times (1 + [DR \times d/365])$$
- where “DR” is the same discount rate described in note 3(c),
 where “Y” is the number of complete years between the Transition Date and the Effective Date, and
 where “d” is the number of days in any partial year between the Transition Date and the Effective Date.
6. The final schedule of payments will be incorporated into the Agreement immediately prior to the Effective Date.

** Provisional amounts based on estimated total outstanding loans and accrued interest up to January 1, 2005 of \$50,000,000. Final payment amounts will be calculated in accordance with the following notes.

Notes to Finalize Schedule 19-B

1. These notes will not form part of the Agreement. The purpose of these notes is to enable the Parties to calculate the amounts to be shown in the provisional schedule of loan re-payments under schedule 19-B and the amounts for the final schedule of loan re-payments.
2. Prior to the initialling of the Agreement, the outstanding amount of principal and interest of the negotiation loans of Labrador Inuit Association is estimated to be approximately \$50,000,000 by a projected Effective Date of January 1, 2005 and serve to establish a provisional schedule of repayments of the negotiation loans in accordance with the following provisions.

4. The final schedule of loan repayment amounts will be calculated prior to the Effective Date such that:
 - (a) the present value of the amounts listed in the final schedule will equal the total outstanding amount of negotiation loans (principal plus accrued interest) as at the Effective Date of the Agreement;
 - (b) the present value referred to in note 4(a) will be calculated using as a discount rate 4.755 percent, which is the 14 year amortized Consolidated Revenue Fund Lending Rate that the Minister of Finance for Canada for August 2003, less 0.125 percent;
 - (c) in any year, the unpaid balance of the Capital Transfer must be sufficient to cover the total of all outstanding loan repayment amounts and applicable interest charges.
5. The final schedule of loan repayments amounts will be incorporated into the Agreement immediately prior to the Effective Date.

Notes for Finalizing Schedule 23-A

1. These notes will not form part of the Agreement. The purpose of these notes is to enable the Parties to calculate the amounts to be shown in the provisional schedule of implementation payments and the amounts for the final schedule of implementation payments.
2. In these notes:

“FDDIPI” means the Final Domestic Demand Implicit Price Index for Canada published regularly by Statistics Canada; and

“Transition Date” means the date that is 15 months after the signing of the Agreement.
3. The provisional schedule of implementation payments was calculated such that:

- (a) the provisional schedule will provide for a first payment on the Effective Date and subsequent payments on each anniversary date;
- (b) the present value of the amounts listed in the provisional schedule will equal \$151.0 million multiplied by the FDDIPI for the first quarter of 2003 and by dividing the resulting product by the value of the FDDIPI for the second quarter of 1997; and
- (c) the present value referred to in note 3(b) is calculated using as a discount rate 4.205 percent, which is the nine year amortized Consolidated Revenue Fund Lending Rate that the Minister of Finance for Canada has approved for August 2003, less 0.125 percent.
4. The final schedule of payments will be calculated prior to the Effective Date by multiplying each amount in the provisional schedule of payments by the value of the FDDIPI for the latest quarter available at that date or the value of FDDIPI for the quarter that includes the Transition Date, whichever is less, and by dividing the resulting product by the value of the latest available FDDIPI for the same quarter used to calculate the provisional schedule of payments described in note 3.
5. If the period between the signature of the Agreement and the Effective Date exceeds 15 months, each amount in the provisional schedule will be adjusted by multiplying the resulting amount in note 4 by
- $$(1 + DR)^Y \times (1 + [DR \times d/365])$$
- where “DR” is the same discount rate described in note 3(c),
 where “Y” is the number of complete years between the Transition Date and the Effective Date, and
 where “d” is the number of days in any partial year between the Transition Date and the Effective Date.
6. Payments will be made to the Nunatsiavut Government in accordance with the final schedule of payments that will be incorporated into the Agreement immediately prior to the Effective Date.
